

METHODS AND APPARATUS FOR CUSTOMIZING USER-INTERFACE CONTROL IN EXISTING APPLICATION

Abstract of the Disclosure

Techniques for altering application user-interface controls are provided. More
5 particularly the customization of a new or existing user-interface control in an application
user-interface is provided. In one aspect of the invention, a method for customizing
user-interface controls of an existing application comprises the recording of a procedure
description performed by a user in the application user-interface. A new or modified
application user-interface control relating to the procedure description is then installed in
10 the existing application.
